

EDUCATIONAL GRANT PROGRAM

GIVING OUR MEMBERS THE FREEDOM TO LEARN

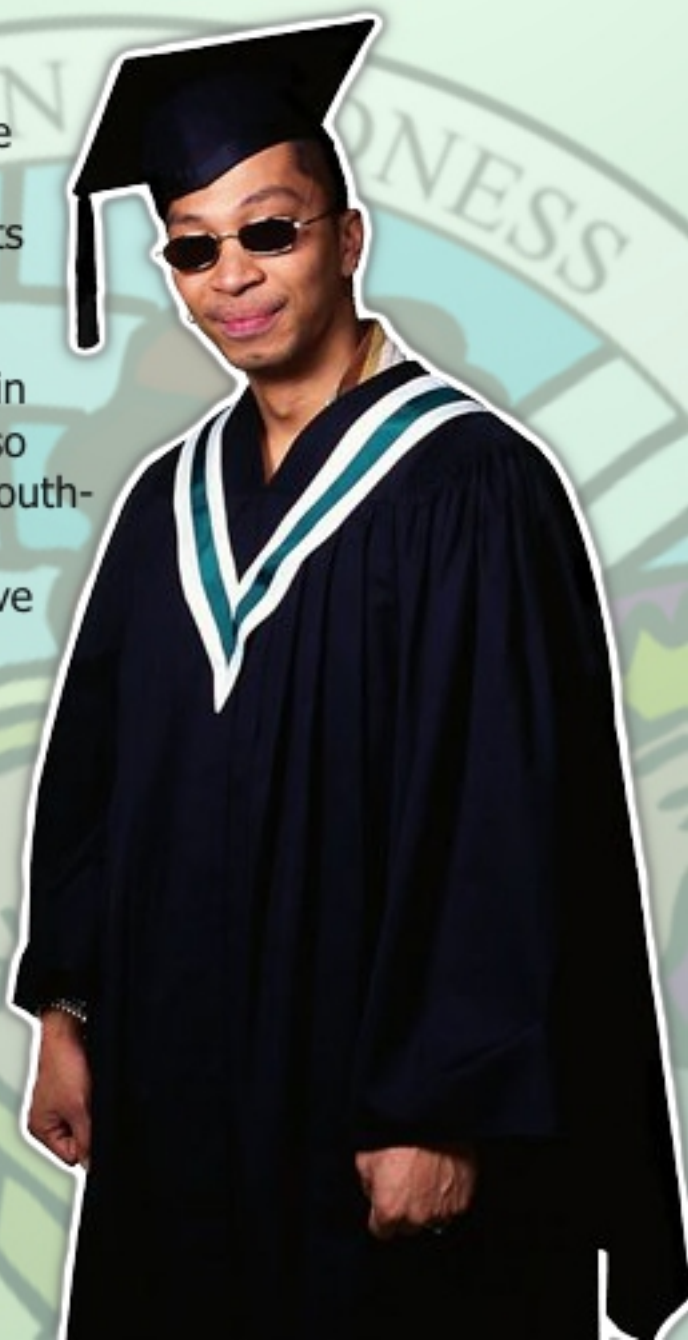

It's one of the sad realities of life that those countries that could most benefit from an educated population are also those that can least afford it. When the choice is between working 16 hours a day to feed your family or going to university and letting them starve, most people will chose to feed their family.

COCK believes that no church member should have to chose between survival and education and to that end, we have created the Educational Grant Program to ensure that every member who wants to learn, can learn.

Primarily intended to benefit members in West Africa, the EGP since 2002 has also helped members in India, Russia and South-East Asia gain advanced degrees and technical training. These graduates have in turn helped their families and communities rise above the abject poverty they were previously subjected to.

Today over 7,000 people have reached for what they thought was impossible and are now living better lives. Now the impossible dream is within your reach!
