

iFAP

iPADs For Africa Program

Started as a pilot program in August 2010, the iPads For Africa Program (iFAP) has seen phenomenal success and has transformed the lives of tens of thousands of our members throughout Zone D. Under the leadership of Pastor Askankes Natch, over 80,000 iPads have been distributed through our African Churches and into the hands of our less fortunate members. All completely free of charge.

This brochure will tell you all you need to know about this program and how you can claim your free iPads as a member church in the COCK family.

IFAP FACTS & FIGURES

82,377

The number of iFAP iPads given away by COCK as of 31 December, 2016.

iFAP iPad Distribution Since 2010

The success of the COCK iPads For Africa Program can be summed up with a single number: 82,377. That's 82,377 iPads given away free and 82,377 COCK members who have the ability to access the world with the swipe of a finger.

All across some of the poorest regions of the world, people who have so little can now access the greatest riches that the world has to offer. Not gold or jewels or money, but knowledge, information and news. Who knew it could be so simple.

COCK is dedicated to the continuation of this groundbreaking program through at least 2020 and the distribution of 100,000 iPads to its neediest members in Africa. Currently we are making available the newest generation iPad Pro 64GB 4G/LTE configuration. For information on how to apply for the iFAP program for your church, keep reading.

BUT AGE IS NOT AN ISSUE

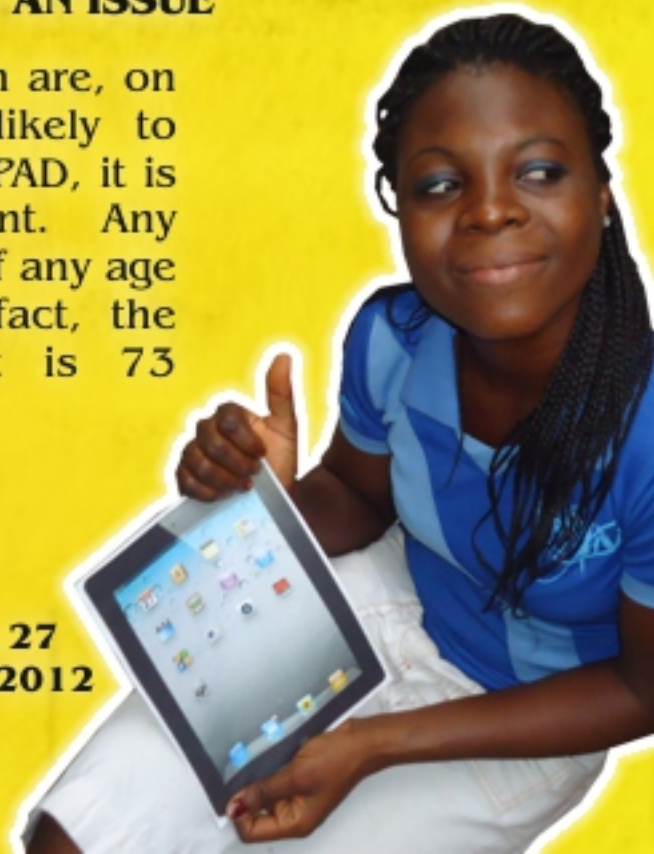

Although children are, on average, more likely to receive an iFAP iPad, it is not a requirement. Any COCK member of any age is eligible. In fact, the oldest recipient is 73 years old!

WE BELIEVE THE CHILDREN ARE THE FUTURE...

...and so do our member churches! Over 64% of all iFAP iPads end up in the hands of youths under the age of 16.
